

SmartShop

Problem

Many people struggle finding where to get their groceries for cheap, especially if they have dietary restrictions.

Solution

SmartShop allows users to see where they can find products for cheaper. If they have any dietary restrictions, the system takes it into account.

Create list

Create your list of products and search for them

Select allergens

Once dietary restrictions are flagged, SmartShop outputs safe options

Find alternatives

If there is a specific product you are looking for and want

Try it here!
